BIBLIOTECA  
INST. SUPERIOR DE ENSEÑANZA  
de la PROV. DE ENTRE RIOS

**PREFACE**

ix

**ACKNOWLEDGMENTS**

xi

**1 SIMULATION MODELING**

- 1.1 Introduction 1
- 1.2 Industrial Case Study 4
- 1.3 Queuing Characteristics 8
- 1.4 Data Requirements 10
- 1.5 Statistical Analysis 12
- 1.6 Monte Carlo Simulation 27

**2 INTRODUCTION TO GPSS/PC**

32

- 2.1 Simulation Languages 32
- 2.2 Cookbook GPSS/PC 33

2.3	GPSS/PC Transactions	42	
2.4	Demonstration Example	44	
2.5	Basic GPSS/PC Simulation Blocks and Control Statements	47	
2.6	GPSS/PC Transaction Chains	74	
<b>3</b>	<b>WRITING, EDITING, AND RUNNING GPSS/PC MODELS</b>		<b>77</b>
3.1	Introduction	77	
3.2	Writing and Editing the Model	77	
3.3	Running a Simulation Model	83	
3.4	Output	87	
3.5	Debugging	90	
<b>4</b>	<b>ADVANCED FEATURES OF GPSS/PC</b>		<b>95</b>
4.1	Introduction	95	
4.2	Indirect Addressing	96	
4.3	Comprehensive Example	97	
4.4	Additional GPSS/PC Blocks and Control Statements	99	
4.5	Blocks with Refuse Modes	128	
4.6	Features of GPSS/PC Not Addressed in Detail	128	
<b>5</b>	<b>CONSTRUCTING, TESTING, AND USING SIMULATION MODELS</b>		<b>133</b>
5.1	Introduction	133	
5.2	Constructing a Model	135	
5.3	Verifying a Model	137	
5.4	Validating the Model	137	
5.5	Initial Conditions and Run Length	139	
5.6	Model Analysis	142	
5.7	Implementation of Results	143	

**6 BROAD VARIETY OF PROBLEMS****145**

- 6.1 Introduction 145
- 6.2 Modeled Examples 145
- 6.3 Queuing Problems 146
- 6.4 Demonstrating Statistical Phenomena 151
- 6.5 System Reliability Analysis 152
- 6.6 Nonqueuing Examples 154

**APPENDICES**

- A GPSS/PC Flow-Chart Symbols 158
- B List of Differences Between GPSS/PC and GPSSV 163
- C Analysis of Variance 167
- D Eight Programmed Examples with Run Details and Results 175
- E GPSS/PC Operational Reference Sheet 229
- F Quick Reference to GPSS/PC Blocks, Commands, Control Statements, and System Numeric Attributes 231

**INDEX****239**
