## Administering ODT-VIEW | X - 254

### Chapter 1: Introduction 1

Servers and Clients	4
Customizing Clients	5
Configuration Guidelines	9
Looking at the Screens	10

### Chapter 2: Common Configuration Issues 15

Controlling ODT-VIEW Initialization	15
Adding Applications to the Desktop Window	16
Emulating a Three-Button Mouse	18
Upgrading from a Monochrome Video Adapter	19
Using Non-English Languages	19
Customizing Windows	20
Customizing the Clients Menu	20
odtterm	21
scoterm	22
Running SCO Professional 2.0 under scoterm	24
Running Microsoft Word under scoterm	26
Other Administrative Issues	28

### Chapter 3: Customizing Startup 29

Controlling ODT-VIEW Startup	29
Using the xdm Display Manager with X Terminals	36

### Chapter 4: Rule Files 39

The Rule Hierarchy	40
Coding Conventions	43
Structure of Rule Files	47
actions [ac]	55
Icon Rules	62
Directory Rules	70
Desktop Layout Rules	73

Menu Rules	75
Locked on Desktop Rules	80
Help Text Rules	81
Internal Rule Precedence	82
<b>Chapter 5: X Resource Specifications</b>	<b>85</b>
About X Resource Specifications	86
Editing Resource Configuration Files	89
About Icons	92
<b>Chapter 6: Window Manager Resources in the .Xdefaults File</b>	<b>99</b>
Specific Appearance and Behavior Resources	100
Component Appearance Resources	111
Mwm Resources for Other Clients	116
<b>Chapter 7: The .mwmrc File</b>	<b>123</b>
Creating the .mwmrc File	124
Window Manager Functions	125
Configuring Menu Panes	135
Configuring Button Bindings	140
Configuring Key Bindings	142
<b>Chapter 8: Desktop Manager Resources in the .Xdefaults File</b>	<b>145</b>
Changing Default Directories and Rule Files	146
Cursor Appearance	147
Icon Appearance	148
Icon Labels	151
Directory Appearance	152
Desktop Appearance	154
Message Box Appearance	156
Mapping Triggers	157
<b>Appendix A Desktop Commands and Utilities</b>	<b>159</b>
<b>Appendix B Specifying Fonts</b>	<b>199</b>
The Font Database	199
Font Names	200
Specifying a Font	204
Cursor Fonts	206

**Appendix C Changing Video Systems 209**

- Description of the Configuration Scripts 209
- Using the Configuration Scripts 211
- Examples 214

**Appendix D Sample System Rule File 217**

**Appendix E Sample .Xdefaults Files 241**

- .Xdefaults Example 1 242
- .Xdefaults Example 2 249

**Administering ODT-OS**

iii - 320

**Chapter 1: Introduction 1**

- The System Administrator and Administrative Roles 1
- Making Administration Easier with the sysadmsh 3
- The Super-User Account 4
- The Keyboard 4
- Running Programs Simultaneously with MultiScreen 6
- System Security 7
- Site Planning Considerations 8

**Chapter 2: Using the System Administration Shell 11**

- Starting sysadmsh 12
- How the Screen is Organized 13
- Selecting Menu Items 14
- Using Forms 16
- Using Scan Windows 22
- Getting Help 24
- The Function Keys 28
- Using Shell Escapes to Access the UNIX Command Line 29
- sysadmsh Menu Options 29

**Chapter 3: Starting and Stopping the System 37**

- Starting the System 37
- Logging in as the Super User 42
- Stopping the System 43
- Understanding the Boot Display Information 45
- Changing the Boot Process 46

<b>Chapter 4: Administering User Accounts</b>	<b>49</b>
Account Management	50
Default Account Configuration	67
Activity Report Generation	80
<b>Chapter 5: Managing Filesystems</b>	<b>85</b>
What Is a Filesystem?	85
Mounting and Unmounting a Filesystem	86
Permitting Users to Mount Filesystems	86
Configurable Filesystem Features	88
Maintaining Free Space in Filesystems	89
Maintaining Efficient Filesystem Organization	92
Adding Disk Space and Filesystems	94
Filesystem Integrity	95
<b>Chapter 6: Adding Multiport Cards, Memory, and Other Bus Cards</b>	<b>103</b>
Installing Bus Cards	103
Adding More Memory	105
Adding and Configuring Serial Ports	107
<b>Chapter 7: Using Printers</b>	<b>111</b>
Installing a Printer	113
Printer Configuration Options	119
Summary of User Commands	134
Summary of Administrative Commands	135
Starting and Stopping the Print Service	136
Canceling a Print Request	138
Enabling and Disabling Printers	138
Adding a Printer to a Class	139
Setting the System Default Destination	140
Mounting a Form or Print Wheel	141
Removing a Printer or Class	142
Managing the Printing Load	143
Managing Queue Priorities	145
Using Forms and Filters	150
Using the Information in the Request Log	151
Customizing the Print Service	153
Configuring a Network Printer	169
Setting Up RTS/CTS Protocol Serial Printers	170
Using a Printer without the Spooler	173
Creating an Init Device File	173

<b>Chapter 8: Using Floppy Disks and Tape Drives</b>	<b>175</b>
Using Cartridge Tape Drives	175
Using Floppy Disks	184
<b>Chapter 9: Using a Mouse</b>	<b>191</b>
Installing the Hardware	191
Installing a Mouse	192
Using the Mouse	196
<b>Chapter 10: Adding Hard Disks</b>	<b>199</b>
Before You Start	201
Installing the Hard Disk	205
Adding the New Filesystem	217
Relinking the Kernel	220
<b>Chapter 11: Maintaining System Security</b>	<b>221</b>
What Is a Trusted System?	222
Running a Trusted System	226
Protecting the Data on Your System	232
Detecting System Tampering	238
Dealing with Filesystem Corruption	240
Security-Related Error Messages	249
Daemon Operations on a Trusted System	254
<b>Chapter 12: Using the Audit Subsystem</b>	<b>257</b>
Data Collection	272
File and Directory Management	280
Report Generation	287
Auditing Capabilities Extended to Users	308
Glossary of Audit Terms	308
<b>Chapter 13: UNIX Directories and Special Device Files</b>	<b>311</b>
UNIX Directories	311
Log Files	316
Special Device Files	317

# Administering ODT-NET

<b>Chapter 1: Networking Overview</b>	<b>1</b>
Introduction to Networking	2
How the Network Works	3
ODT-NET Services	8
Introducing TCP/IP	8
Introducing NFS	13
Introducing LAN Manager Client	14
Introducing UUCP	16
Introducing MMDF	17
Other Networking Software	17
<b>Chapter 2: TCP/IP Network Administration</b>	<b>19</b>
Kernel Configuration	19
Runtime Configuration of STREAMS Drivers	22
Setting Interface Parameters	24
Local Subnetworks	24
Internet Broadcast Addresses	25
Routing	26
Using UNIX System Machines as Gateways	27
Network Servers	27
Network Databases	28
Network Tuning and Troubleshooting	31
<b>Chapter 3: Name Server Operations Guide for BIND</b>	<b>39</b>
The Name Service	39
Types of Servers	40
Setting Up Your Own Domain	42
Remote Servers	45
Initializing the Cache	45
Standard Resource Records	46
Some Sample Files	53
Additional Sample Files	56
Domain Management	58

<b>Chapter 4: Synchronizing Network Clocks</b>	<b>61</b>
How a Time Daemon Works	61
Guidelines	62
Options	63
Daily Operation	64
<b>Chapter 5: Configuring NFS</b>	<b>65</b>
Role of the Operating System in NFS	65
Introducing NFS	66
Setting Up an NFS Server	67
Setting Up an NFS Client	68
Starting and Stopping NFS	70
Debugging NFS	71
Adding a New User	79
Incompatibilities with Remote Filesystems	80
Handling Clock Skew in User Programs	82
<b>Chapter 6: Managing the LAN Manager Client Network</b>	<b>85</b>
Special Network Files	87
Starting and Stopping the Network	87
NetBIOS	88
Network Parameter Descriptions	89
Configuring for Performance	102
<b>Chapter 7: Building a Remote Network with UUCP</b>	<b>107</b>
What Is UUCP?	107
How to Use This Chapter	108
What You Need	109
UUCP Commands	109
Connecting Remote UUCP Systems with a Modem	114
Configuring UUCP on Your System	116
Special UUCP Configuration Options	141
Administering Your UUCP System	143
Complete UUCP Examples	147
UUCP Error Messages	153

**Chapter 8: Setting Up Electronic Mail 159**

How MMDF Works	163
Configuring MMDF	180
Maintaining Your MMDF System	207
Changing a Machine Name	208
Internet Addresses	209

**Chapter 9: Using Modems 211**

Choosing a Serial Port	211
Configuring Your Modem	212
Installing a Modem	215
Dialing into Your Computer	221
Dialing Out from Your Computer	222

**Glossary 225**

## **Administering ODT-DOS**

**Chapter 1: Introduction 1**

Who Should Use This Guide	1
Organization of This Guide	1
ODT-DOS Guides	2
Installing ODT-DOS	2
Release Notes	2

**Chapter 2: Administering ODT-DOS 3**

Using the dosadmin Program	4
Adding And Deleting User Accounts	4
Administering DOS Applications	4
Administering the System Console	6
Administering COM Ports	11
Administering DOS Printers	11
Backing Up the ODT-DOS Filesystem	15
Administering Disk and Diskette Drives	15
Administering the Physical DOS Partition	16
Administering Virtual DOS Partitions and Virtual Floppy Disks	19
Installing Plug-In Cards in Your Computer	25
Making New DOS Images	31
System Files Affected by System Administration	35

<b>Chapter 3: Installing DOS Applications</b>	<b>37</b>
Installing DOS Applications Using dosadmin	37
Installing Copy-Protected DOS Applications	50
Removing DOS Applications	54

## **Administering ODT-DATA**

<b>Chapter 1: Introduction</b>	<b>1</b>
Introduction to Release 6	2
Organization of This Document	3
Associated Publications	4
<b>Chapter 2: Overview of Installation Tools</b>	<b>5</b>
ODT-DATA Installation Utility-iibuild	5
ODT-DATA Installation and DBMS Server Start Up	5
The Installation Shut Down Utility-shutserver	6
<b>Chapter 3: Configuration Decisions</b>	<b>7</b>
Configuration Requirements	7
General Suggestions for Avoiding Problems	11
<b>Chapter 4: Installing ODT-DATA</b>	<b>13</b>
Selecting an Initialization Mode	13
Default Initialization Values	14
Initialization Checklist	16
<b>Chapter 5: Maintenance Utilities</b>	<b>19</b>
The Server (iibms) Maintenance Utility-iimonitor	19
Shared Memory and Semaphores Report Utility-csreport	22
The Locking Facility Report-lockstat	24
The Logging Facility Report-logstat	26
<b>Chapter 6: Installation Reference Material</b>	<b>31</b>
ODT-DATA Installation and Server Start Up Utility	31
ODT-DATA Installation Shutdown	40

<b>Chapter 7: Troubleshooting with Log Files</b>	<b>43</b>
ODT-DATA Log Files	43
<b>Appendix A: ODT-DATA Startup Files</b>	<b>45</b>
Installation-Wide Startup Files	45
Database-Specific Startup File	45
User-Specific Startup File	46
<b>Appendix B: Authorizing User Access to ODT-DATA and Databases</b>	<b>47</b>
Database Access	47
Defining the Terminal	48
Invoking accessdb	49
Using accessdb	49
Functions in accessdb	50
Summary of accessdb	57
<b>Appendix C: ODT-DATA Environment Variables</b>	<b>59</b>
Setting Installation Wide Environment Variables	59
Setting User Defined Environment Variables	60
Environment Variable List	60
<b>Appendix D: Database Backup and Recovery</b>	<b>69</b>
Overview	69
The ODT-DATA Logging System	70
Verifying the Accessibility of Your Data	71
Backing Up a Database with Checkpoints	71
Using the ODT-DATA Journaling System	78
Backing Up With Copydb	84
Backing Up With Unloadb	86
Using Operating System Backups	90
Recovering Databases	93
<b>Appendix E: ODT-DATA System Recovery</b>	<b>96</b>
Using finddbs	96

**Appendix F: Running ODT-DATA under the Network File System** 100  
Configuration Scenarios 100

**Glossary** 106

**Global Index**
